

IV. AMENDMENTS TO THE SPECIFICATION

On Page 18, Paragraph 6:

Referring specifically to Fig. 6, the adhesive force PA of the pressure-sensitive adhesive layer 19 on the transfer area such as sheet of paper, the rupture strength ~~PB of the transfer mark layer 16,~~ the adhesive force PC of the transfer mark layer 16 and base tape 15, and the adhesive force PD of the pressure-sensitive adhesive layer 19 and the base tape are set in the relation of $PA \geq \cancel{PB} \geq PC \geq PD$.
